## Gameplay

*Bennets & Bonnets* is a card-drafting game set in Jane Austen's *Pride & Prejudice* world, about 5 sisters competing to create the most fabulous outfits (think *Sushi Go!* meets *Rococo*).

Through a drafting mechanic all players gather fabrics, patterns and accessories each round. They then have to produce an ensemble fit to wear to the ball. But of course you also need to study... and your sister just stole your best bonnet... and your beloved might turn up!

## Components

120 cards
